## Documentary Evidence:

### Water Management and Conservation Initiatives

#### 1. Rainwater Harvesting:

- Attached are photographs showcasing our rainwater harvesting infrastructure on campus. These images demonstrate the presence of rainwater collection systems, including gutters, downspouts, and storage tanks, designed to capture and store rainwater for various uses within our institution.

#### 2. Reservoirs/Tanks/Bore Wells:

- Attached is documentation detailing our water management infrastructure, including the presence tanks, and bore wells. We have four bore wells on campus, which are essential for supplementing our water supply and ensuring sustainable water usage.

### 3. Economical Usage/Reduced Wastage:

- Our institution's commitment to promoting water conservation through economical usage and minimizing wastage. One notable initiative includes the installation of a smart water motor, equipped with sensors to detect when the tank is full. Upon detection, the motor automatically shuts off, preventing overflows and unnecessary water wastage.

These documentary evidences attest to T. N. Rao College Teacher Education's commitment to water management and conservation initiatives, which are integral to our efforts to promote sustainability and environmental stewardship on campus.
